

Marco Sevilla

San Francisco, CA • www.marcosevilla.com • marcogsevilla@gmail.com • [linkedin.com/in/marcogsevilla](https://www.linkedin.com/in/marcogsevilla)

Senior Product Designer with 7+ years of experience building B2B SaaS, AI, and O-to-1 products. Expertise in AI-driven design workflows, accelerating prototype and product development. Former founding designer, skilled in developing scalable systems with meticulous visual craft. Lead designer across multiple revenue-driving products for hotels, used by over 54 million guests, driving \$4.8M+ CARR across brands like Marriott, Wyndham, and Best Western.

Experience

Canary Technologies • Product Designer San Francisco, CA • 2023 - Current

- Designed architecture for Canary's AI Knowledge Base, serving as the foundational data model which now powers AI Messaging and AI Voice Concierge products. Categorized schema, replacing free-form fields and scaled to 2,000+ properties including Wyndham's 4,570-site portfolio.
- Led design end-to-end for Compendium, Canary's guest experience platform, driving \$1m+ cumulative CARR (+141% YoY), increasing customer adoption by 82%, and 175k MAU, through new Custom Sections feature.
- Drove user research and redesign of our Check-in product, activating over 6,000+ Wyndham hotels worldwide, and increasing hotel admin adoption by +80%.
- Led design for F&B Mobile Ordering O-to-1 including order management dashboard, menu CMS, guest-side mobile ordering, and Canary's first POS integration. Prototyped in code and reduced validation loop for customer calls.
- Scaled product team from 4 to 30 members through a Series B/C/D fundraising rounds, onboarding new teammates and strengthening product team operations.

General Task • Founding Product Designer Redwood City, CA • 2022 - 2023

- Founding designer for an AI-native productivity tool for engineers, owned end-to-end product experience and drove 80% 30-day activated retention rate through beta.
- Led launch design – website, visual brand, and onboarding – driving 1,000+ signups, #2 Product Hunt placement (Jan 2023), and Y Combinator (W23) acceptance.
- Authored company's first design system and folder-based product information architecture, grounded in 20+ user research conversations with founders, engineering managers, and IC engineers.

Vivino • Visual Designer San Francisco, CA • 2021 - 2022

- Led design for global and local marketing campaigns leading to company's second-highest single-day revenue in company history.

Vyond • Lead Visual Designer San Mateo, CA • 2019 - 2021

- Redesigned brand and marketing design systems and led UX work for the revenue-generating marketing surfaces. Ran A/B tests across digital channels and represented the company as design speaker (2,000+ webinar attendees).
